

## Wire treatment lines

- Spool solutions
- Coil solutions

## Cable Machinery

- Rod break-down machines for 10mm & 9mm copper / Aluminium wires
- Continuous coilers
- High speed twinning machines
- Steel taps Armouring machines
- Cotton Tape Armouring machines
- Drum Twisting lines
- Rewinding lines
- Cotton/Steel Taping lines
- Double twist Bunching machines

## Electrical Panels

- Electrical control panels with programmable logic controls, menu driven display, touch screens, Length measurement device, pre-setter etc.
- CE certified

## Modern machine shop

- CNC machine - Boring, Lathe, Drill, etc.
- Floor Type Boring

## Fabrication shop

- Pug cutting machine,
- CO2 and Arc Welding facilities
- Submerged Arc Welding

## Inspection & testing facilities

- Dynamic balancing machines
- Hardness Testing
- Vibration & Sound level
- X-ray Testing

## Electrical panel assemble shop

In-house facility for panel design, manufacturing and programming

- Design
- Assembly
- Testing

# Prestigious Projects

Some of our prestigious projects include:

- Supply of 20 stranding and closing machines to one of Europe's most reputed companies.
- Supply of wet and dry wire drawing machines to renowned wire rope manufacturers in Europe and Middle-East.
- Supply of wire drawing machines and equipment to leading steel manufacturers in India.

# Our Locations

### Corporate Headquarter

**USHA MARTIN LIMITED**  
2A, Shakespeare Sarani  
'Mangal Kalash'  
Kolkata - 700071

# Quality Control

Precision and quality have always been our hallmarks. All machines and components are thoroughly checked and tested after accurate assembly of the machines.

# Service capabilities

To deliver guaranteed peace of mind to our customers, we provide best in class after sales support and services, some of which are featured below:

- Dynamic balancing machine for balancing of all rotor tubes.
- Hard coating of drum for Dry Drawing machines.
- Experienced manpower - a strong technical team backed by state-of-the-art technology and equipment provide the edge to our offerings.
- Machine building, refurbishing, reconditioning and re-engineering of machinery to its original specification and performance levels.
- Continuous monitoring, revamping and technology up-gradation of machines.

# Customers

We are the preferred equipment supplier to various leading Wire, Rope and Cable companies in India and abroad. Our footprints are spread across USA, U.K., France, Germany, England, Sri Lanka, Australia, Mexico, Nepal, New Zealand, Bangladesh, Indonesia, South Africa, Ethiopia, Thailand and Malaysia.

# Machinery Division

Over 4 decades of excellence

# Making machines

The Machinery Division of the Usha Martin Limited was established in the year 1974 to manufacture wire drawing machines and allied equipment. Over the years, it has added a wide range of wire, steel wire rope and cable machinery to its product portfolio and is now the leader in India and abroad. In its endeavour to deliver world class machineries and services, the entity had entered into technical collaborations with leading manufacturers such as:

- M/s Marshall Richards Barco of Newcastle, U.K.
- M/s Hi-Draw Machinery Ltd., UK,
- M/s Stolberger Maschinenfabrik, Germany and De-Angeli Industrie, Italy
- M/s Redaelli Tecna Meccanica, Italy

## Top-of-the-line expertise for top-class machines

Understanding your needs and translating into technical terms gives us unbeatable advantage.

We firmly believe that only the best machines deliver the best products, which is why, at Usha Martin Machinery Division, we produce sophisticated and specialised machines of only the best quality across a wide range of wire, steel, wire rope and cable applications. Technological collaboration with a host of leading global companies has led to the machinery division emerging as a segment leader

in India and a preferred supplier across the world. Based at Ranchi, we cater to a large domestic and international clientele, giving every customer the warranty of world-class machines and services.

Each machine in our range of offerings is characterised by:

- State-of-the-art technology
- Best in class expertise
- Customised features

# Manufacturing capabilities

The Machinery Division currently manufactures state-of-the-art machinery, across categories:

- Drawing machines and allied equipment: Wet wire drawing machines for ferrous and non-ferrous applications and dry drawing machines.
- Stranding and closing machines for manufacturing wire ropes:
  - Tubular stranding machines for 6, 12, 18, 24, 36 and 48 bobbin arrangements with speeds upto 3000 rpm.
  - Planetary strander for 24, 36, 48 and 60 bobbins.
  - Tubular closers for 6, 8, 12, 18 bobbin arrangements with different speeds.
  - Sun & planetary closers for 6, 8, 12, 18, 20 and 24 bobbin arrangements with sizes up to 2200 mm diameter.
- Bunchers – 18", 24", 450 DIN and 630 DIN.
- Plant and equipment for manufacturing Power and Telephone Cables.
- Bright Bar machineries
- Accessories
- Copper Coating lines for manufacturing MIG welding wire
- Steel plant equipment such as unscrambles, roller tables, coil conveyor systems, cooling troughs, winches, etc.
- High speed twinning & bunching machines
- Spare parts, bobbins and reels
- Machineries for oil tempered spring steel wires

# Products

Over the years, the Machinery Division has added a wide range of Wire, Wire Rope and Cable Machinery to its product range and is now the leading manufacturer of machines in this field.

## Stranding and Closing lines

- Stranding Machine
- Closing Machine
- Planetary Closing Machine
- Bunching Machine

- Encircle bearing type tubular Stranding & closing machine for 630, 500, 450, 315, 250, 200 and 160 mm dia DIN bobbin
- Under Roller type tubular Stranding & closing machine for 900, 800, 750, 630, 450, 315, 250 & 200 mm dia DIN bobbin
- Rigid & planetary stranding & closing machines for 550, 600, 630, 1000, 2200 mm dia bobbin

## Drawing Lines

- Wet Wire Drawing Machinery
- Dry Wire Drawing Machinery
- Accessories
- Coiler
- Spooler

- Dancer Arm Machine to draw 16mm to 3mm steel wire
- Heavy Duty Bull Block to draw 30mm to 3mm steel wire
- OTO / BB wire drawing machines for 10mm to 2mm dia steel wire.
- Wet wire drawing machines – 13 die, 17 die, 19 die, 21 die & 23 die.

# Vision

In our business, we shall retain market leadership in India and shall be globally competitive through customer orientation and excellence in quality, innovation & technology.

“Innovation and speed are our key drivers, Consistent high quality and an attitude to serve form the foundation of all our activities.”
